Attached please find an updated organizational chart for OGI. The chart does not exist anywhere yet except on the attachment, because OGI is still in the process of negotiating with PMCD/OP vis-a-vis slots, grades, titles and the like. It is as close as we can get and will be updated as soon as possible. The total incumbents figure  agrees with what OGI actually has on board currently. The August 1982 CRAMS report showed  "people"; the difference is the number of independent contractors. Regarding work stations - the attached report reflects  while the CRAMS report shows . The difference involves the fact that in the CRAMS report both ADP and WP equipment were counted as work stations; the attached did not (per the instructions).
